

Project 4 : Concept Driven

Technical Requirements:

You will then select your best shots to make 10 final digital prints. Do not manipulate the image other than with the techniques shown in class over the semester.

Conceptual Requirements:

Write a one-page project proposal that describes your final project in detail. You should mention in your proposal the specific subject(s) you're planning to shoot, but also mention the intent of the project. That is, what should we as viewers take away from seeing your work. This might be an emotion or feeling or it may be an implied narrative. Consider your choices carefully since it is up to you to name your intent and follow it through.

Due April 8th:

- 1 page project proposal
- 100+ pictures in the form of contact sheets.

Due April 16th:

- 100+ new pictures in the form of contact sheets.

Due April 29th:

- Critique of 10 color prints
