

Project 2 (Part B) **Source/Book**

Project Description:

This project will continue to explore your source idea in “book” form. Your book may be in the traditional form (covers front and back with pages), or using an alternative form (3-D, billboard, for instance). Your book must contain at least 5 of your final Source images. Your book must be entirely created or reconstructed by you (covers, inside pages, etc.).

In part B of Source/Book your mock-up will become your fully realized piece.

Guidelines

- Continue to develop your source idea and its definition by writing a new “sources paragraph”. Your paragraph must be a minimum of 200 words. **This paragraph is an ongoing discussion of your source idea, not necessarily a description of this week's project.**
- Based on the discussion and feedback in class create your “book.”

DUE NEXT CLASS

- An email of your entire (updated) “sources journal” discussing your source. (email a copy by **MONDAY 2/25/08 at noon**)
- Your finished book project presentation & critique.
