

Project Phase #3

For Deadlines & Critique Date - See Syllabus Schedule

Conceptual Requirements:

Based on feedback from the first two critiques and any new research or any evolution of your idea, present a revised and polished Artist Statement and Working Title that describes your work and concept. Some of the questions that can be addressed are:

1. What informs or inspires this work?
2. What is the central subject of this work?
3. What is the medium and how does your process relate to your theme, concept or context?
4. What are your goals in making this work? (Communicating to a large audience, inspiring others to look, experience, understand something? Be specific.)
5. What would you like your audience to go away with after seeing your work? (To be inspired to do something, to think more deeply, to realize the beauty in the ordinary, to be revolted?)

Technical Requirements:

For this project you will shoot 2 rolls medium format film per week or the equivalent if shooting digitally or using 4x5 film. If you have questions, about this please speak to me individually to clarify the exact quantity per week. Make printed digital contact sheets for all photographs shot. From your contact sheets, edit 8-10 images to enlarge. Present your research materials, working ideas, sketches, etc. in the form of your artist journal.

Make prints and prepare a presentation with a combination of works in progress, and a few examples of exhibition-ready work, or approaching exhibition-ready. The works closest to being finished should employ most of the choices you're considering in terms of presentation size, medium, arrangement etc. This is a good time to get feedback on your presentation choices as they align with your concept leading up to the Exhibition and final critique. Your written statement should have no grammatical errors and its structure and arrangement should be clear. It should concisely address the most relevant questions posed above.
